Dear John,

Sorry I did not think to tell you yesterday that while I cannot travel and have to keep unusual hours, there are some radio talk shows I can do and I can be interviewed by those talk shows that do tape interviews.

There used to be a few in New York City, one especially on the Pacifica station, that liked the assassinations and aired fine mythologies.

I think that if the article can be placed it can start a healthy controversy.

I cannot help being wide awake quite early. This morning's 1 a.m. is not unusual. That is why I must try to be abed by 6 p.m.

If the late night-early morning west coast talk shows are worth it I can do them by phone then.

And of course I can do daytimers.

Best,

Harold
